HOW NOT TO DO IT.

Ten Infallible Rules Which if Observed will Set the Town to Grass and Woods and Populate it With Bats and Owls.

In view of the meeting of the Board of Trade at the court-house last night; the strenuous efforts it has made for building up the town and the little encouragement it has received, especially from those who are largely the beneficiaries of its efforts, it will be appropriate and in order for the latter to cut out the following rules and paste them in their hats for constant reference, meditation and reflection:

1. Join no organization looking to the upbuilding of the town. It will be an incentive and encouragement to those who give their time and money and expend their eloquence to keep alive such organizations.

2. Impugn the motives of those who join and become active and enthusiastic members and charge them with a desire to advertise themselves with the hope of securing some local political office. This inspires patriotic men to work all the harder for the public good.

3. Give an ice bath to every enterprise, predict its early failure, and contribute to that end by patronizing rival industries in rival towns. It will encourage others to invest their money in home industries.

4. When a committee calls on you for a contribution for a town celebration, or any good cause the purpose of which is for the town's growth and pride, act like a sore-headed miser, and yield up your nickel contribution with as much ill-taste, sour temper, gloom and despair, and prophecy of evil, as possible. It will lighten the burdens of the committeemen and send them on their way rejoicing and full of enthusiasm in their work of love in the upbuilding of the city.

5. When strangers visit the town let them wander around loose and enlighten themselves by reading the signs and pumping the professional curb-stone patriots. The visitors will carry away a delightful remembrance of the city and advertise it to their friends wherever they may go.

6. Backbite your public officials and accuse them of pandering to vice and crime and being controlled by the tongs. Incidentally prate about how vice flourishes and virtue goes unrewarded and hangs its head in shame. It will prove an incentive for officers to perform their duties and for good people to flock to the town to educate their children.

7. Whenever the town papers differ in the slightest with your ideas of public policy, declare that they have been bought up, and drop the editor a line that reads like this: "Stop my paper!" And when you run for judge or some other office, expect him to "turn the other cheek" and support you heartily. And by way of variety and in chorus "cuss the editor." Let him understand that he is a fluke for others to play on and has no business with having ideas of his own.

8. Oppose any enterprise which is not in exact accord with your own ideas. It will be conducive to that spirit of concession and unity which is necessary and essential to progress.

9. Give sparingly, if at all, to movements for the general good of the town, even if you are the largest property owner in it. It will spur on to greater exertions the public spirited citizens of your town to renewed efforts for its upbuilding and induce the coming and the help of others.

10. Observe the above rules closely and there can be no doubt about the building up of our town. It will grow and continue to grow—(up in weeds)—until it shall ultimately become a fit habitation for blind bats and hooting owls.

Blown to Atoms.

The old idea that the body sometimes needs a powerful, drastic, purgative pill has been exploded, for Dr. King's New Life Pills, which are perfectly harmless, gently stimulate liver and bowels to expel poisonous matter, cleanse the system and absolutely cure constipation and sick headache. Only 25c at Garrett & Gerig's drug store. 1

A Statue to General Gary.

A very handsome monument has recently been erected to Gen. Mart. W. Gary, at Tabernacle, near Cokesbury, S. C.

General Gary was well known in Florida and is remembered as a fighter. The late Col. S. M. G. Gary and the late Dr. Thos. P. Gary, of Ocala, were his brothers.

Important Board of Trade Meeting.

The meeting of citizens at the court house last night to hold up the hands of the Board was enthusiastic and hopelessly large.

The organization will be continued and more zeal be infused into it; or, at least, that is the promise.

Mr. J. F. Edwards offered the Board a room in the Ocala House ready furnished free of charge for permanent use for which he was tendered a vote of thanks.

Mayor Fishel, General Bullock, H. L. Anderson, Charles Rheinauer, B. A. Weathers, Major Chas. W. Campbell, President Ford, Secretary Williams, C. L. Bittinger, Frank Harris, and others, made remarks appropriate to the occasion and stimulating the efforts in the upbuilding of the city.

A meeting will be held to-night to discuss the proposition of removing the Methodist Conference College from Leesburg to Ocala.

Arranging Editors' Trip.

The Florida Press Association has not as yet perfected their plans for visiting the Pan-American exposition at Buffalo. The trip will doubtless be made on a date in September, yet to be named. Colonel Appleyard, secretary of the association, left last night for Tallahassee to talk with Governor Jennings on the subject, and it is expected the date for "Florida day" will then be arranged, and other matters of detail will conform as near as possible to the plans of the Florida editors, whose purpose it is to boom the state, for a movement that will make "Florida day" the biggest ever known of a similar character.—Times-Union and Citizen.

Dr. Geo. Ewing, a practicing physician of Smith Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure. "For years I have been bothered with kidney trouble and enlarged prostate gland. I used everything known to the profession without relief, until I was induced to use Foley's Kidney Cure. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles, for I can honestly state I have prescribed it in hundreds of cases with perfect success. The D. D.'s Entertained.

On Wednesday evening Misses Mary and Rebecca Anderson entertained the D. D.'s at their beautiful home on South Third street, complimentary to Miss Violet Harris, who leaves Monday for Alabama.

Hearts were played on the lawn until a late hour. The prize, "The Crisis," was cut for by Mr. Arthur Gray and Miss Violet Harris, the former winning it.

Dainty refreshments were served, which were enjoyed. A most delightful evening was spent.

Activity in the Flagler Region.

Farmers are beginning to make preparations for the early crop of vegetables. The prairie lands, which overflowed during the heavy rains, are now dry. Within the next few weeks hundreds of acres will be plowed. The farmers are making preparations to plant a much larger acreage than ever before. The planting of citrus trees is engaging the attention of many of the growers now, and the increase in planting citrus trees over any previous year will be enormous. This is not confined to the Miami section but extends over the coast line from Fort Lauderdale south to Black Creek.

Atlanta, Ga., Nov. 19, 1900.

We have handled Dr. Moffett's Teething (Teething Powders) ever since its first introduction to the public and trade as a proprietary medicine, and our trade in it has steadily increased from year to year until our orders now amount to two or three hundred gross per year, which is a very strong evidence of its merit and the satisfaction it is giving to the mothers of the country, for they say that nothing so effectually counteracts the effects of the summer's hot sun or overcomes so quickly the troubles incident to teething.

The State Fair.

The following circular letter has been sent out from Jacksonville by the general manager, G. P. Healy:

To the Exhibitors of the State Fair:

To the end that there may be full exhibits of all of the resources of the state, the management of the fair feel that there is no time to be lost by those who intend to compete in preparing their exhibits at once. Every county exhibit should be carefully prepared throughout the summer. All farm products that must be carried over the summer should be carefully looked after, that they may be in the best possible condition when the fair opens. There is already a large demand for space, and those intending to show should send in their applications for space at once. Pens and sheds must be built for stock, and it is of great importance that the management know as soon as possible what will be wanted.

Counties should know as soon as possible what space they will need and communicate with the management at once. Individual exhibitors should, as far as possible, make their exhibits a part of their county exhibit, while they may at the same time show as an individual exhibit.

Read carefully all the regulations and rules in the premium list, and if you have not received one send to this office for it. The management is desirous of giving every aid in their power to exhibitors and are at all times ready to give any information they may have. We are working to one end—for the good of the state.

Orange Springs Again Becoming a Health and Summer Resort.

The following persons have registered here this week: Christopher Mathison, Gainesville; Judge and Mrs. Mason, Gainesville; R. C. Bannerman, Portland, Me.; G. W. Barker and wife, Anthony. They are here to recuperate at the spring.

G. P. Ross's young orange grove is becoming a thing of beauty, and promises fine results.

Professor Brinson and family attended a reunion of his family at Eureka on Sunday, the occasion being the eighty-first anniversary of his grandfather's birth.

Dr. Goddard, of Citra, answered a professional call here Tuesday. He has established an enviable reputation as a physician and gentleman.

Miss Anna Wells, of Fort McCoy, entered the normal for the teachers' course last Monday.

Rev. Mr. Norton is conducting a protracted meeting at the Methodist Episcopal church.

A Big Land Sale.

The trustees of the Internal Improvement Fund have closed a big land deal with outside capitalists for 200,000 acres of land, in the vicinity of the Thousand Islands. J. M. Barrs, of Jacksonville, is attorney for the capitalists, who do not wish their plans given to the public. However, it is said that their purpose is to drain and reclaim lands which will be of great advantage to the state in general and South Florida in particular. It is claimed that these men will expend over a million dollars in the near future in the draining and reclamation of lands, and the erection of various plants for enterprises which they will establish.

Deputy United States Marshal J. M. Forbes on Wednesday arrested Joe Briton on a boat at Panacea Springs. Mr. Forbes thought he was getting a smuggler of aguardiente. Briton was brought to Tallahassee and taken before Commissioner Hodges, who, for lack of testimony to convict him, discharged the prisoner.

Oil Indications Multiplying.

Our surface indications continue to be reported. Mr. W. A. Finley, living near Ocala, has a spring rich with oil and the water of which is undrinkable.

Surface indications are reported at Daisy and other places.

If these places are "salted" some individual has been kept pretty busy.

Aiding and Abetting.
